BULL SALE

02-06-25

## FELLOW CATTELMEN

We welcome you to Ressler Ranch's annual production sale!

We are an Angus seedstock program nestled northwest of Cooperstown, ND. We have dedicated ourselves to raising Registered Black Angus cattle focusing on a balanced approach to producing females that excel in reproductive efficiency, docility, and performance. Our program continually focuses on developing a herd where each cow contributes to the traits essential to the success of our customers. The journey to perfecting these traits is a long-term commitment that involves evaluating and refining breeding practices over many generations. It's essential to understand that chasing the ideal "super cow" can sometimes lead to diminishing returns. That is why we have chosen to focus on a steady and incremental approach to improvement that aligns with practical needs and market demands rather than in the pursuit of an unattainable ideal.

At Ressler Ranch, we're genuinely dedicated to supporting our customers. If you have any questions about our genetics, our management practices, or if you need guidance in your operation, don't hesitate to reach out. Our family is here to help in any way we can. We look forward to hearing from you and working together in this fantastic industry.

Ryan & Meghan Ressler  
701-797-7212 or 701-797-7213

READY & RELIABLE  
02 - 06 - 25

**SELLING:**

51 Black Angus Yearling Bulls  
6 2 Year Olds Angus Bulls  
12 Registered Yearling Black Angus Heifers  
150 Commercial Yearling Black Angus Heifers

**VIEW CATALOG & VIDEOS**

[www.ResslerRanch.com](http://www.ResslerRanch.com) & [DVAuction.com](http://DVAuction.com)

**CATTLE VIEWING:**

You are welcome to view the bulls and heifers at Ressler Ranch in Cooperstown, ND. Cattle will be sorted into pens the morning of the sale.

**DIRECTIONS:**

- From the Junction of Hwy 1 S & Hwy 200: Drive 1 mile west and 6 miles north.
- From the Junction of Hwy 45 and Hwy 65: Drive 3 miles west and 3/4 of a mile south.
- From the junction of Hwy 65 and Hwy 1 north: Drive 6.4 miles east.
- You can also request a pin (sent via text from Ryan or Meghan before sale day.

**VIEW AND BID ONLINE:**

Live bidding will be available online at [www.DVAuction.com](http://www.DVAuction.com). Please review the information in the front of the catalog and REGISTER EARLY TO BE APPROVED AS A BIDDER WITH PLENTY OF TIME BEFORE THE SALE. If you do not want to bid on the internet, you can bid over the phone via the numbers listed below, or in person at Ressler Ranch.

**SALE DAY PHONES:**

Ryan Ressler: 701-797-7212  
Meghan Ressler: 701-797-7213  
Wyatt Goettle: 701-371-6791 (commercial heifers)  
Scott Bennett: 701-650-8853 (commercial heifers)

**AUCTIONEER:**

Matt Lowrey: 308-750-6119

# READY & RELIABLE

## our mission statement

We are ready to be your breeding advocate. We are here to accommodate the breeding program you are building toward and provide you with the genetics and pedigrees that will help you accomplish those goals. We will never leave out information or doctor numbers. We want your purchase to be beneficial to your operation; your cattle ought to work for you. We are READY to take on the problems and challenges that a rancher faces and work towards solving them.

We strive for cattle that can easily conceive, carry a calf to term, smoothly calve a well-proportioned calf, mother/care/raise that calf until the fall — all while keeping her condition — and do it all again year after year. This is the definition of a reliable cow. The ability to trust a cow will consistently perform in this manner is imperative to a successful operation: this is what we always aspire to deliver.

### SALE ORDER/SUPPLEMENT SHEET:

A sale order will be available sale day along with a supplemental sheet with scrotal measurements, adjusted yearling weights, and ultrasound data, and any updated genetics.

### INSURANCE:

Bulls that are purchased on sale day become the buyers' responsibility as soon as they are sold. We recommend insuring the bulls on sale day.

### FEEDING AND DELIVERY:

Bulls are kept free of charge until April 1, 2025. Free delivery is offered in North Dakota or up to 300 miles on bulls with delivery beyond at-cost. We will assist in any way possible to get your bull to you. Please leave the delivery instructions at settlement time. Delivery on heifers is at the buyer's cost.

### TERMS AND CONDITIONS:

The terms of the sale are cash. Phone or mail bids are welcome and may be given to the auctioneer or any of the sale representatives. Live bidding will be available online at [www.DVAuction.com](http://www.DVAuction.com). Please REGISTER EARLY and review the below information and to be an approved bidder before the sale. Each animal will be sold to the highest bidder. Any bidding disputes will be settled by the auctioneer.

Any person attending the sale does so at their own risk. Neither the owners nor any person connected with this sale assumes any liability, legal or otherwise. Cattle will sell according to the terms and conditions suggested by the American Angus Association.

### GUARANTEE:

All bulls are guaranteed breeders and guaranteed healthy on sale day. Each bull sells with a first breeding season satisfaction guarantee and fertility/structural soundness warranty. "First Breeding Season" is defined as the 90 days following the first turnout of the bull(s). If a bull becomes unsound due to structural flaws or becomes infertile, contact Ryan Ressler at 701-797-7212 to start a claim. The warranty does not apply to injuries, illness, neglect, or death of the bull. If there is a claim, a replacement bull of equal or higher value will be provided if available. If a replacement is not available, a credit minus salvage value will be issued, which may be used at a future Ressler Ranch sale. Under no circumstance will Ressler Ranch be liable for more than the net purchase of any bull. This guarantee ends at the end of the purchase year. Ressler Ranch recommends the purchase of livestock mortality insurance to mitigate this type of loss.

### SEMEN INTEREST:

Ressler Ranch will retain one-third semen interest in all bulls sold.

# SIRE

## Ellingson Fortified

A massive individual with tons of performance, design, and cow making phenotype. If you are an EPD fan, Fortified sits at the top of the Angus breed for WW and YW CW, \$F, and \$W. His substance, natural fleshing capabilities, growth performance and foot improving qualities have already been heavily utilized in our program. His daughters are about to drop their first calves this spring.

Lot 23 is sired by Ellingson Professional, the kind of bull that easily projects an impressive overall presence. His son is walking heavy in those footsteps with an individual weaning ratio of 109. 482 is the complete calving ease package in a free and easy moving masculine stature. His hard working young Fortress dam has started her production career of right with 4 calves and an average weaning ratio of 109.

# SIRE Ressler Roosevelt

We carefully chose to combine the one generation changing performance sire, Roughrider, and a maternal powerhouse, Mohnen Jilt 539. This is the only mating of its kind in the entire world. This bull is a STUD. He has continuously raised offspring with length, DOCILITY, performance, and females with amazing maternal abilities. On top of that, he has proven HEIFER SAFE without sacrificing the performance necessary for the industry.

Ressler Resilient 322 is balanced from nose to tail and has the right kind of calving ease, growth, and maternal combination for our customers. In fact, we are so confident in this bull that we utilized him on our own heifers. His Mohnen Ruth 2561 and Ten Speed dam shows of a flawless udder, deep sided, and walks on a CORRECT set of feet and legs. We really like this bull.

Lot 69 is out of a hard working and dependable 13 year old Chisum Daughter that has raised 11 calves with a WR of 102, and breeds back AI'd on the 1st cycle every year. It is worth repeating, this type of longevity and consistency is what creates the profitability in you herd. Ressler Naomi 4033 carries all that maternal power in an easy fleshing and flawless structure.

# The cattle offered are practical, in real life situations.

## 2025 COMMERCIAL HEIFERS

Once again, we would like to present to you a phenomenal opportunity to purchase an excellent set of quality commercial heifers. Our consigners consist of Randy & Evy Ressler of Cooperstown, ND, Wyatt & Becky Goettle, of Donnybrook, and Scott & Chandy Bennette of Pingree, ND. Each consigner has brought in a complete set of feminine and phenotypically beautiful heifers. They have worked towards raising quality replacement heifers by focusing on calving ease, impeccable feet, docility, milk production, udder/teat shape and size, and an annual increase in average weaning weights.

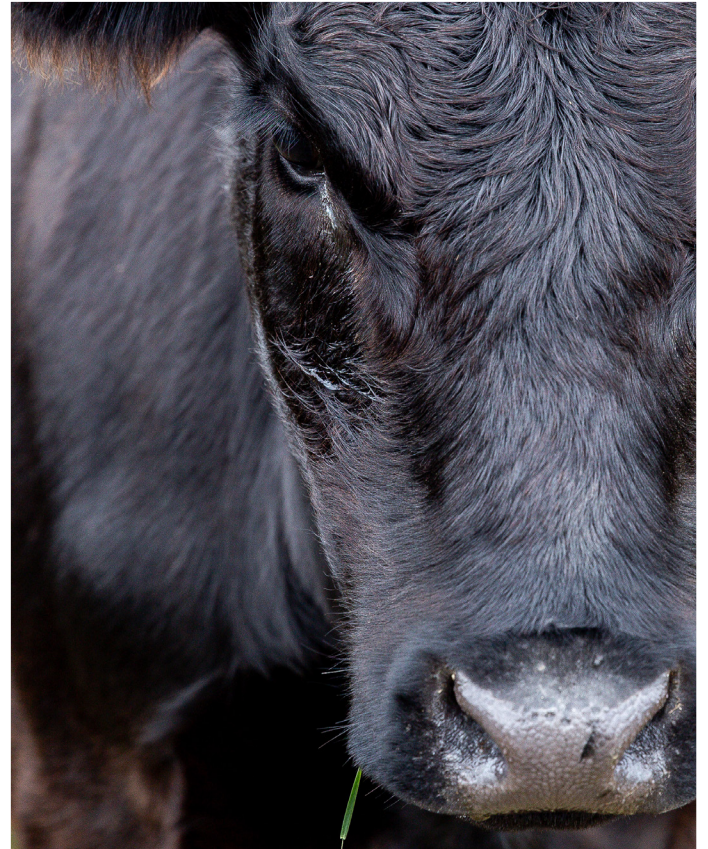

The Ressler heifers offered in this year's production sale are direct daughters of Ellingson Fortified, Sitz Resilient, Brooking Bank Note, Fire Brand, Expert, General. They are easy fleshing and naturally muscular in a sound structure, a docile demeanor and feminine profile. Over the last several years their dams have been providing us with reproductively efficient females and scale pounding steers, all of which have easy to work with demeanors.

All the Black Angus heifers have been fully vaccinated, vet checked open and evaluated for reproductive soundness. Each one is deemed not only adequate in their calving capacity but also mature in their reproductive tract. Any heifers that were labeled as narrow/ immature or flighty have been removed. All this is to ensure they will be ready come breeding season and low maintenance during calving. The buyer takes a minimum of 5 head and may take the whole group. A select few of the commercial heifers from Ressler Ranch have the potential to be registered at an additional cost.

## BAR B-52

Ressler Ranch purchased B52 from Bruner Angus Ranch in 2020. He has proven to add ample frame, length, growth, and style to each of his calves. His first daughters will be calving spring of 2023 in our herd and several other registered and commercial ranches. His offspring are long, powerful, femininely and gorgeously patterned in a balanced package with excellent feet. The bulls and steers have continuously brought performance, 3-dimensional shape and pounds to the table.

Marcys Scale Crusher  
X  
SAV Blackcap May 4574~

SAV Big Rig 0934 is an exceptional sire – blending the valuable outcross blood of Marcys Scale Crusher with SAV Blackcap May 4574 – bringing calving ease potential, powerful phenotype, breed impacting performance, carcass merit and cow family strength to a versatile lineage, employable to most bloodlines. 'Big Rig' is a flush brother to 'SAV Crush 0935' with BIG Rig himself being a truly unique bull. He has the potential to impact productivity and profitability in the beef business for generations. His productive dam is a beautiful and broody cow with powerful dimension and superb structure – a headliner in the SAV embryos program. She is a flush sister to SAV Regard 4863.

Co-Owned with 6 Diamond Cattle & Schaff Angus Valley.

## Ressler Roosevelt 901

Reg: 19583237

We carefully chose to combine the one generation changing performance sire, Roughrider, and the maternal powerhouse Mohnen Jilt 539. This is the only mating of its kind in the entire world. This bull is a phenomenal AI stud. Teddy, as we affectionately call him, is a home raised Roughrider son that has continuously raised offspring with length, DOCILITY, performance, and females with amazing maternal abilities. On top of all that, he has proven himself safe for use on heifers without sacrificing the performance necessary for this industry. Glasoe Angus and Ressler Ranch have several daughters walking our ranches and they are showing off the genetics he has passed on.
